

Gabriela Oyarzún Batlle

+1 (312) 776 9933 · gabrielabatlle2025@u.northwestern.edu · Evanston, IL

EDUCATION:

Northwestern University

Evanston, IL

BS in Mechanical Engineering w/ Design concentration, Segal Design Institute Certificate.

Expected Graduation: June 2025

- **Academic Awards:** Outstanding Communication Award, Design Thinking and Communication fair (Winter 2022), Dean's List Honors (Spring 2024).
-

SKILLS:

Computer: Solidworks CAD, NX, MATLAB, Python, Microsoft Office, Illustrator, and InDesign, HTML, CSS, Javascript.

Languages: Fluent in Spanish, English, Italian.

Machining: Lathe, Mill, Band Saw, Horizontal Band Saw, Metal Shear, Sheet Metal Bender, Drill Press, Laser Cutter.

Mechanical Design: Expertise in generating 3D CAD and 2D drawings with SolidWorks and NX; experience with tolerance stack analysis, GD&T, and conducting FEA tests for mechanical assemblies.

Soft Skills: Proactive problem-solving, attention to detail, time management, adaptability, and collaboration with cross-functional teams.

EXPERIENCE

Northwestern University's Segal Design Institute

Shop Trainer:

September 2022 - Present

- Supervise and train over 200 students annually in shop machinery operation, emphasizing safety and proper use of mill, lathe, laser cutter, band saws, etc.
- Collaborate with shop managers and co-workers to advise on design-for-manufacturing, ensuring students understand assembly processes and material constraints.

Baja SAE, Car Team

New Member Trainer:

September 2022 - January 2023

- Trained team members in SolidWorks CAD, lathe, and mill operations to design and manufacture components for the Baja SAE off road car..
-

RELEVANT PROJECTS

CNC Mill Bracket

March 2023 - June 2023

- Led a project to redesign a mounting bracket for a CNC milling machine, working collaboratively to meet new design requirements and validate through testing.
- Utilized NX for CAD design, conducted FEA simulations, and iterated on 3D-printed prototypes to refine performance and ensure reliability.

CVT (Continuous Variable Transmission) Cover, NU Baja SAE

September 2022 - May 2023

- Designed a CVT cover for an off-road car to meet competition rules. Used SolidWorks CAD for mechanical design and collaborated with manufacturing teams to ensure design viability in production.
- Ensured the CVT remained inaccessible for safety compliance for drivers, mechanics and bystanders. The car achieved 8th place at the competition.

Seatbelt Boxes, NU Baja SAE

January 2022 - May 2022

- Designed on Solidworks CAD and fabricated seatbelt boxes for off-road vehicle to maintain firewall integrity per competition requirements.
- Ensured safety compliance for drivers, mechanics and bystanders by covering the holes in case of a motor malfunction.
